PROFESSIONAL SUMMARY

Laravel/PHP Full Stack Developer with 4 years of experience delivering business websites, e-commerce stores, multi-tenant CRM and WhatsApp marketing platform, LMS, and mobile app backends. Skilled in building REST APIs and integrating JustDial, IndiaMART, WhatsApp (Meta), ThriveCart, Razorpay and CCAvenue. Work independently and own projects end to end, from development and deployment to live-site support.

TECHNICAL SKILLS

Backend: PHP 8, Laravel, CodeIgniter 4, OOP, MVC, Eloquent ORM, RESTful APIs, Token-based Authentication, Webhooks, Multi-tenant (SaaS) Architecture, Mobile App Backend APIs

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 4/5, jQuery, AJAX, Responsive Design

Database & Tools: MySQL (schema design, joins, indexing), Git, GitHub, Postman

Integrations: Payment Gateways: Razorpay, CCAvenue (HDFC) | APIs: WhatsApp (Meta Business API), JustDial, IndiaMART, ThriveCart

Deployment: Hostinger, cPanel, CloudPanel, aaPanel, VPS (basic), live-site support and maintenance

PROFESSIONAL EXPERIENCE

Jaimru Technology Pvt. Ltd. - Delhi, India (Full-time) Nov 2022 - Present

Full Stack Developer cum Project Coordinator Dec 2024 - Present

- Own architecture, technical decisions and delivery for 8+ production applications built with Laravel, CodeIgniter 4 and React.js, from requirements to release and post-release support.
- Build custom applications including a multi-tenant CRM, multi-tenant WhatsApp marketing software, LMS, and REST API backends for multiple mobile apps.
- Integrate payment gateways (Razorpay, CCAvenue) and third-party APIs (WhatsApp/Meta, JustDial, IndiaMART, ThriveCart).
- Deploy and manage client sites and applications on Hostinger, cPanel, CloudPanel and aaPanel; handle live-site support and content updates.
- Coordinate with clients and the internal team on planning, requirements and project delivery.

Senior PHP Developer Feb 2023 - Dec 2024

- Independently built business, e-commerce and portfolio websites and developed Laravel and CodeIgniter applications and mobile-app APIs for clients; maintained live sites.

PHP Developer Nov 2022 - Feb 2023

- Developed and maintained PHP/CodeIgniter features, fixed defects and supported live client applications.

KEY PROJECTS

Multi-Tenant CRM - CodeIgniter 4, MySQL, Bootstrap - crm.jaimru.com

- Built end-to-end purchase invoice, sales invoice and lead management modules with tenant-level data isolation
- Integrated IndiaMART and JustDial lead APIs and exposed secure token-based tenant APIs for website lead capture, replacing manual lead entry

Multi-Tenant WhatsApp Marketing Software - CodeIgniter 4, Bootstrap, Vue.js - jaimrutechnology.in/whatsapp

- Implemented Meta Business APIs and built the Template Wizard, Message and Campaign modules for bulk WhatsApp marketing.

IALM Academy (LMS) - Laravel, React.js - ialm.academy

- Developed a responsive React.js front end with reusable components and API integrations; customized the Laravel backend and delivered ongoing enhancements.

WEBSITES & APPLICATIONS DELIVERED

Custom applications: GIS platform, AI education subscription app, LPG price update subscription app, mobile app backends and APIs

Websites: Business, ecommerce (online ordering with POS), portfolio and company websites

EDUCATION

Bachelor of Computer Applications (BCA) - IGNOU

2018 - 2022
